

## Fresh Wind Fresh Fire Review Pastor Shannon Watterson

Prayer works! If you have any doubts then this is a great book to read to increase your faith. This book came into my life as a teenager and I've kept it on my yearly reading list because it inspires, encourages, and reminds me how God can move if we are willing to call on His name. Pastor Jim Cymbala tells of his journey pastoring the now famous Brooklyn Tabernacle. He started with nothing except for a willing heart to do something in the kingdom of God. Prayer became the pillar on which the church was built and God moved in ways no one expected. I encourage you to read this book because it will challenge you to spend more time with the Lord in prayer and to start believing for the unexpected in your own life.
